Spiritual Warfare Is Real Study Guide plus Streaming Video Jim Cymbala 2021-07-27 Satan is not out to get you to follow him; he's out to get you to ignore him. When we spiritually zone out, doze off, fall asleep, we are forgetting that we are in the middle of a war--and Satan loves it this way! He loves to convince people he doesn't exist. But Satan is real. He is an actual enemy of our soul. He is waging a real war against us. And we need to wake up and get in the fight. If we fail to do this, we do so at our own peril. In this five-session video Bible study (streaming included), bestselling author Jim Cymbala shows participants how to: Recognize the spiritual wars around them. Understand the enemy's plots against them. Develop practical strategies for fighting back. As believers in Christ, we have been given everything we need to stand strong and take the fight to the enemy. As we do, we will recognize, as the apostle Paul writes in 1 Corinthians, that God "gives us the victory through our Lord Jesus Christ" (1 Corinthians 15:57). This study guide has everything you need for a full Bible study experience, including: The study guide itself--with discussion and reflection questions, video notes, and a leader's guide. An individual access code to stream all five video sessions online (you don't need to buy a DVD!). Contagious Faith Study Guide plus Streaming Video Mark Mittelberg 2021-12-28 This Study Guide includes: Individual access to 6 streaming video sessions Discussion and reflection questions with video notes Personal study between sessions Leader's Guide In this new video-based training course, bestselling author and teacher Mark Mittelberg introduces you to the five Contagious Faith Styles—Friendship-Building, Selfless-Serving, Story-Sharing, Reason-Giving, and Truth-Telling—and helps you discover which of these approaches (or combination of them) will enable you to naturally share your faith in Jesus with the people around you. The Contagious Faith assessment will help you identify your primary style, along with any secondary styles you discover. It will give you next steps for developing and deploying your natural approach in order to reach others for Christ. It will also emphasize the importance of all the skill set areas discussed in the Contagious Faith book, and wherever natural it will prompt them to try out the skills discussed on the video with someone else in the group. In this way their effectiveness and confidence will grow—and with it, their potential for bearing spiritual fruit by impacting the lives of others. The six sessions in Contagious Faith can be used in small groups, classes, student ministries, and church-wide campaigns. The training videos will also include short interviews in which Mark Mittelberg will interact with five individuals who speak and use each of the 5 faith-sharing styles. Much like Mittelberg's Becoming a Contagious Christian, we see the Contagious Faith book and course becoming the standard materials churches and Christian ministries will use around the world to help their members more effectively share their faith with others.

Loveology Study Guide John Mark Comer 2014-02-04 In the beginning, God created Adam. Then he made Eve. And ever since we've been picking up the pieces. Loveology is a theology of love from God's point of view. The five sessions start with God's design for marriage and works backward, dealing with sexuality, romance, singleness, and what it means to be male and female. Pastor and writer John Mark Comer shares about what is right in male/female relationships—what God intended in the Garden. And about what is wrong—the fallout in a post-Eden world. The Loveology video-based Bible study (DVD/digital video sold separately) is for anyone who wants to learn what the Scriptures have to say about sexuality and relationships and for people who want to ask the why questions and get intelligent, grace-and-truth answers. As you walk through this five-week study, you will come to better understand what God fully intended back in the garden. By comprehending the brilliance behind God's original plan for love and marriage and sex and romance—if we can redefine that fuzzy, amorphous, confusing word “love” and look at it through the lens of Jesus—your marriages and relationships will be radically altered as a result. Teaching and Learning STEM Richard M. Felder 2016-03-07 Rethink traditional teaching methods to improve student learning and retention in STEM Educational research has repeatedly shown that compared to traditional teacher-centered instruction, certain learner-centered methods lead to improved learning outcomes, greater development of critical high-level skills, and increased retention in science, technology, engineering, and mathematics (STEM) disciplines. Teaching and Learning STEM presents a trove of practical research-based strategies for designing and teaching courses and assessing students' learning. The book draws on the authors' extensive backgrounds and decades of experience in STEM education and faculty development. Its engaging and well-illustrated descriptions will equip you to implement the strategies in your courses and to deal effectively with problems (including student resistance) that might occur in the implementation. The book will help you: Plan and conduct class sessions in which students are actively engaged, no matter how large the class is Make good use of technology in face-to-face, online, and hybrid courses and flipped classrooms Assess how well students are acquiring the knowledge, skills, and conceptual understanding the course is designed to teach Help students develop expert problem-solving skills and skills in communication, creative thinking, critical thinking, high-performance teamwork, and self-directed learning Meet the learning needs of STEM students with a broad diversity of attributes and backgrounds The strategies presented in Teaching and Learning STEM don't require revolutionary time-intensive changes in your teaching, but rather a gradual integration of traditional and new methods. The result will be continual improvement in your teaching and your students' learning.
