*A Once Crowded Sky* Tom King 2013-07-09 "Tom King's debut novel opens in an imaginative world of comic book superheroes struggling to take on normal lives after sacrificing their powers to save the world"--  
*All Those Explosions Were Someone Else's Fault* James Alan Gardner 2017-11-07 Monsters are real. But so are heroes. Sparks are champions of weird science. Boasting capes and costumes and amazing super-powers that only make sense if you don't think about them too hard, they fight an eternal battle for truth and justice . . . mostly. Darklings are creatures of myth and magic: ghosts, vampires, were-beasts, and the like. Their very presence warps reality. Doors creak at their approach. Cobwebs gather where they linger. Kim Lam is an ordinary college student until a freak scientific accident (what else?) transforms Kim and three housemates into Sparks—and drafts them into the never-ending war between the Light and Dark. They struggle to master their new abilities—and (of course) to design cool costumes and come up with great hero-names. Turns out that “accident” was just the first salvo in a Mad Genius’s latest diabolical scheme. Now it’s up to four newbie heroes to save the day, before they even have a chance to figure out what their team’s name should be! At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

*Paranormal Nonsense* Steve Higgs 2017-06-26 Tempest Michaels does not believe in the paranormal, so why does he investigate it for a living? Because a typo in his advert landed him the job and clients started calling before he could get it changed. There is no paranormal of course, so Tempest spends much of his time patiently pointing out that Grandma Rita isn't a witch, she is just ugly or that it is not a ghost disturbing your sleep, you have terrible flatulence. However, following a spate of violent deaths with vampiric characteristics the police are getting nowhere and Tempest feels that solving the mystery falls into his job description. This would be enough motivation, but when the alluring PC Amanda Harper AKA PC Hotstuff asks for his help the lonely voice from his pants demands he do all he can to solve the case, find the killer and win a one-way trip to her knickers. Aided by his friends, encumbered by his mother (Why are there no Grandchildren, Tempest?), advised by a clearly deluded occult book shop owner and surrounded on all sides by beautiful women who just want to be friends, Tempest soon finds himself up to his eyeballs in wannabe vampires who want to kill him while simultaneously investigating reports of a Big Foot terrorising the local countryside and dealing with a pesky Poltergeist. It will get worse before it gets better and all he really wants is a date with an attractive woman.

**Advanced Dragon Studies** L.C. Mawson 2020-10-01 Post-grad might have been a little late for starting my magical education, but I was determined to prove myself. No matter the cost. I don't know if they thought they were protecting me, or if they just never thought that they belonged, but my parents always kept me at the edges of the magical community, not letting me access my magic until I turned twenty-one. Now I only have one chance - my post-grad course at Ember Academy for Magical Beings - to prove that I'm enough of a dragon to truly belong, even if my old friend/crush who I thought would help me get used to this new world is ignoring me, my one fellow dragon classmate seems to think I'm beneath him, and my mermaid roommate wants me gone as fast as possible. **Invasion: Book One of the Secret World Chronicle** Mercedes Lackey 2011-03-01 The world had become used to the metahumans-people sometimes perfectly ordinary, but sometimes quite extraordinary in appearance-who mostly worked with their governments as high-powered peace officers, fighting crime, and sometimes fighting rogue metahumans who had become super-criminals. Then that comfortable world ended in just one terrifying day. Suddenly, all world governments were simultaneously attacked by soldiers in giant mecha robotic suits with the swastika symbol of the Third Reich on their metal arms. If these were Nazis, where had they been hiding since the end of World War II? And where had they gotten armor and weapons far in advance of anything on the planet? Weapons against which even the metahuman heroes seemed to be helpless... At the publisher's request, this title is sold without DRM (Digital Rights Management).
