**Francesca Caccini at the Medici Court** Suzanne G. Cusick 2015-11-07 A contemporary of Shakespeare and Monteverdi, and a colleague of Galileo and Artemisia Gentileschi at the Medici court, Francesca Caccini was a dominant musical figure there for thirty years. Dazzling listeners with the transformative power of her performances and the sparkling wit of the music she composed for more than a dozen court theatricals, Caccini is best remembered today as the first woman to have composed opera. Francesca Caccini at the Medici Court reveals for the first time how this multitalented composer established a fully professional musical career at a time when virtually no other women were able to achieve comparable success. Suzanne G. Cusick argues that Caccini’s career depended on the usefulness of her talents to the political agenda of Grand Duchess Christine de Lorraine, Tuscany’s de facto regent from 1606 to 1636. Drawing on Classical and feminist theory, Cusick shows how the music Caccini made for the Medici court sustained the culture that enabled Christine’s power, thereby also supporting the sexual and political aims of its women. In bringing Caccini’s surprising story so vividly to life, Cusick ultimately illuminates how music making functioned in early modern Italy as a significant medium for the circulation of power.

**Learning and Not Learning in the Heritage Language Classroom** Kimberly Adilia Helmer 2020-02-13 Learning and Not Learning in the Heritage Language Classroom, a critical ethnography, describes the first year of a teacher-founded charter high school and presents a case-study of compulsory Spanish heritage language instruction with two Spanish-language teachers, one English dominant and the other Spanish dominant. The study follows the same cohort of Mexican-origin students to their humanities-English class, bringing into focus what works and what does not with this group of learners. Unlike many Spanish heritage language studies, the students in this book did not choose to take part in Spanish class and thus provide unusually raw feedback on their teachers and classes. The engagement and resistance of these students suggests pedagogical directions for engaging Spanish heritage language learners. The book will be of interest to scholars, administrators, students and teachers involved in the delivery and assessment of heritage language classes.

**In the Shadow of Justice** Katrina Forrester 2021-03-09 A bold new history of postwar political philosophy and of how John Rawls transformed modern liberalism In the Shadow of Justice tells the story of how liberal political philosophy was transformed in the second half of the twentieth century under the influence of John Rawls. In this first-ever history of contemporary liberal theory, Katrina Forrester shows how liberal egalitarianism—a set of ideas about justice, equality, obligation, and the state—became dominant, and traces its emergence from the political and ideological context of the postwar United States and Britain. In the aftermath of the civil rights movement and the Vietnam War, political philosophers extended, developed, and reshaped liberalism as they responded to challenges and alternatives on the left and right—from the New International Economic Order to the rise of the New Right. These thinkers remade political philosophy in ways that influenced both liberal theory and its critics. Recasting the history of late twentieth-century political thought, In the Shadow of Justice offers a rigorous look at liberalism’s ambitions and limits.

**Queer Ecologies** Catriona Mortimer-Sandilands 2010-07-14 Treating such issues as animal sex, species politics, environmental justice, lesbian space and "gay" ghettos, AIDS literatures, and queer nationalities, this lively collection asks important questions at the intersections of sexuality and environmental studies. Contributors from a wide range of disciplines present a focused engagement with the critical, philosophical, and political dimensions of sex and nature. These discussions are particularly relevant to current debates in many disciplines, including environmental studies, queer theory, critical race theory, philosophy, literary criticism, and politics. As a whole, Queer Ecologies stands as a powerful corrective to views that equate "natural" with "straight" while "queer" is held to be against nature.

*Horrid* Katrina Leno 2020-09-15 From the author of You Must Not Miss comes a haunting contemporary horror novel that explores themes of mental illness, rage, and grief, twisted with spine-chilling elements of Stephen King and Agatha Christie. Following her father's death, Jane North-Robinson and her mom move from sunny California to the dreary, dilapidated old house in Maine where her mother grew up. All they want is a fresh start, but behind North Manor's doors lurks a history that leaves them feeling more alone . . . and more tormented. As the cold New England autumn arrives, and Jane settles in to her new home, she finds solace in old books and memories of her dad. She steadily begins making new friends, but also faces bullying from the resident "bad seed," struggling to tamp down her own worst nature in response. Jane's mom also seems to be spiraling with the return of her childhood home, but she won't reveal why. Then Jane discovers that the "storage room" her mom has kept locked isn't for storage at all -- it's a little girl's bedroom, left untouched for years and not quite as empty of inhabitants as it appears . . . Is it grief? Mental illness? Or something more . . . horrid?

**Homeland** Aaron E. Sanchez 2021-01-21 Ideas defer to no border—least of all the idea of belonging. So where does one belong, and what does belonging even mean, when a border inscribes one’s identity? This dilemma, so critical to the ethnic Mexican community, is at the heart of Homeland, an intellectual, cultural, and literary history of belonging in ethnic Mexican thought through the twentieth century. Belonging, as Aaron E. Sánchez’s sees it, is an interwoven collection of ideas that defines human connectedness and that shapes the contours of human responsibilities and our obligations to one another. In Homeland, Sánchez traces these ideas of belonging to their global, national, and local origins, and shows how they have transformed over time. For pragmatic, ideological, and political reasons, ethnic Mexicans have adapted, adopted, and abandoned ideas about belonging as shifting conceptions of citizenship disrupted old and new ways of thinking about roots and shared identity around the global. From the Mexican Revolution to the Chicano Movement, in Texas and across the nation, journalists, poets, lawyers, labor activists, and people from all walks of life have reworked or rejected citizenship as a concept that explained the responsibilities of people to the state and to one another. A wealth of sources—poems, plays, protests, editorials, and manifestos—demonstrate how ethnic Mexicans responded to changes in the legitimate means of belonging in the twentieth century. With competing ideas from both sides of the border they expressed how they viewed their position in the region, the nation, and the world—in ways that sometimes united and often divided the community. A transnational history that reveals how ideas move across borders and between communities, Homeland offers welcome insight into the defining and changing concept of belonging in relation to citizenship. In the process, the book marks another step in a promising new direction for Mexican American intellectual history.

**Children of Katrina** Alice Fothergill 2015-09-01 When children experience upheaval and trauma, adults often view them as either vulnerable and helpless or as resilient and able to easily “bounce back.” But the reality is far more complex for the children and youth whose lives are suddenly upended by disaster. How are children actually affected by catastrophic events and how do they cope with the damage and disruption? Children of Katrina offers one of the only long-term, multiyear studies of young people following disaster. Sociologists Alice Fothergill and Lori Peek spent seven years after Hurricane Katrina interviewing and observing several hundred children and their family members, friends, neighbors, teachers, and other caregivers. In this book, they focus intimately on seven children between the ages of three and eighteen, selected because they exemplify the varied experiences of the larger group. They find that children followed three different post-disaster trajectories—declining, finding equilibrium, and fluctuating—as they tried to regain stability. The children’s moving stories illuminate how a devastating disaster affects individual health and well-being, family situations, housing and neighborhood contexts, schooling, peer relationships, and extracurricular activities. This work also demonstrates how outcomes were often worse for children who were vulnerable and living in crisis before the storm. Fothergill and Peek clarify what kinds of assistance children need during emergency response and recovery periods, as well as the individual, familial, social, and structural factors that aid or hinder children in getting that support.

*Ten Lessons for a Post-Pandemic World* Fareed Zakaria 2020-10-06 From the international bestselling author of The Post-American World 'An intelligent, learned and judicious guide for a world already in the making' The New York Times Since the end of the Cold War, the world has been shaken to its core three times. 11 September 2001, the financial collapse of 2008 and - most of all - Covid-19. Each was an asymmetric threat, set in motion by something seemingly small, and different from anything the world had experienced before. Lenin is supposed to have said, 'There are decades when nothing happens and weeks when decades happen.' This is one of those times when history has sped up. In this urgent and timely book, Fareed Zakaria, one of the 'top ten global thinkers of the last decade' (Foreign Policy), foresees the nature of a post-pandemic world: the political, social, technological and economic consequences that may take years to unfold. In ten surprising, hopeful 'lessons', he writes about the acceleration of natural and biological risks, the obsolescence of the old political categories of right and left, the rise of 'digital life', the future of globalization and an emerging world order split between the United States and China. He invites us to think about how we are truly social animals with community embedded in our nature, and, above all, the degree to which nothing is written - the future is truly in our own hands. Ten Lessons for a Post-Pandemic World speaks to past, present and future, and will become an enduring reflection on life in the early twenty-first century.

**Strike Ballots, Democracy, and Law** Breen Creighton 2020-11-05 This book critically evaluates mandatory strike ballots as a means of protecting the 'democratic' rights of workers. Exploring empirical case studies from Australia and comparative analysis from a range of other countries, this book concludes that often the goal is to curtail strikes rather than support the democratic imperative for workers.

**The Little Old Lady Killer** Susana Vargas Cervantes 2019-08-20 The surprising true story of Mexico’s hunt, arrest, and conviction of its first female serial killer For three years, amid widespread public outrage, police in Mexico City struggled to uncover the identity of the killer responsible for the ghastly deaths of forty elderly women, many of whom had been strangled in their homes with a stethoscope by someone posing as a government nurse. When Juana Barraza

Samperio, a female professional wrestler known as la Dama del Silencio (the Lady of Silence), was arrested—and eventually sentenced to 759 years in prison—for her crimes as the Mataviejitas (the little old lady killer), her case disrupted traditional narratives about gender, criminality, and victimhood in the popular and criminological imagination. Marshaling ten years of research, and one of the only interviews that Juana Barraza Samperio has given while in prison, Susana Vargas Cervantes deconstructs this uniquely provocative story. She focuses, in particular, on the complex, gendered aspects of the case, asking: Who is a killer? Barraza—with her “manly” features and strength, her career as a masked wrestler in lucha libre, and her violent crimes—is presented, here, as a study in gender deviance, a disruption of what scholars call mexicanidad, or the masculine notion of what it means to be Mexican. Cervantes also challenges our conception of victimhood—specifically, who “counts” as a victim. The Little Old Lady Killer presents a fascinating analysis of what serial killing—often considered “killing for the pleasure of killing”—represents to us.

**Funny Bones** Duncan Tonatiuh 2015-08-25 Funny Bones tells the story of how the amusing calaveras—skeletons performing various everyday or festive activities—came to be. They are the creation of Mexican artist José Guadalupe (Lupe) Posada (1852-1913). In a country that was not known for freedom of speech, he first drew political cartoons, much to the amusement of the local population but not the politicians. He continued to draw cartoons throughout much of his life, but he is best known today for his calavera drawings. They have become synonymous with Mexico’s Día de los Muertos (Day of the Dead) festival. Juxtaposing his own art with that of Lupe’s, author Duncan Tonatiuh brings to light the remarkable life and work of a man whose art is beloved by many but whose name has remained in obscurity. The book includes an author’s note, bibliography, glossary, and index.

**The Code of Capital** Katharina Pistor 2020-09-22 "Capital is the defining feature of modern economies, yet most people have no idea where it actually comes from. What is it, exactly, that transforms mere wealth into an asset that automatically creates more wealth? The Code of Capital explains how capital is created behind closed doors in the offices of private attorneys, and why this little-known fact is one of the biggest reasons for the widening wealth gap between the holders of capital and everybody else. In this revealing book, Katharina Pistor argues that the law selectively "codes" certain assets, endowing them with the capacity to protect and produce private wealth. With the right legal coding, any object, claim, or idea can be turned into capital - and lawyers are the keepers of the code. Pistor describes how they pick and choose among different legal systems and legal devices for the ones that best serve their clients' needs, and how techniques that were first perfected centuries ago to code landholdings as capital are being used today to code stocks, bonds, ideas, and even expectations--assets that exist only in law. A powerful new way of thinking about one of the most pernicious problems of our time, The Code of Capital explores the different ways that debt, complex financial products, and other assets are coded to give financial advantage to their holders. This provocative book paints a troubling portrait of the pervasive global nature of the code, the people who shape it, and the governments that enforce it."-- Provided by publisher.

**Mean** Myriam Gurba 2017-11-07 “A painfully timely story . . . an artful memoir . . . a powerful, vital book about damage and the ghostly afterlives of abuse.” —Los Angeles Review of Books True crime, memoir, and ghost story, Mean is the bold and hilarious tale of Myriam Gurba’s coming of age as a queer, mixed-race Chicana. Blending radical formal fluidity and caustic humor, Gurba takes on sexual violence, small towns, and race, turning what might be tragic into piercing, revealing comedy. This is a confident, intoxicating, brassy book that takes the cost of sexual assault, racism, misogyny, and homophobia deadly seriously. We act mean to defend ourselves from boredom and from those who would chop off our breasts. We act mean to defend our clubs and institutions. We act mean because we like to laugh. Being mean to boys is fun and a second-wave feminist duty. Being rude to men who deserve it is a holy mission. Sisterhood is powerful, but being a bitch is more exhilarating . . . “Mean calls for a fat, fluorescent trigger warning start to finish—and I say this admiringly. Gurba likes the feel of radioactive substances on her bare hands.” —The New York Times “Gurba uses the tragedies, both small and large, she sees around her to illuminate the realities of systemic racism and misogyny, and the ways in which we can try to escape what society would like to tell us is our fate.” —Nylon “With its icy wit, edgy wedding of lyricism and prose, and unflinching look at personal and public demons, Gurba’s introspective memoir is brave and significant.” —Kirkus Reviews “Mean will make you LOL and break your heart.” —The Millions
