Back To The Astronomy Cafe Sten

Odenwald 2003-10-16 How fast does gravity travel? When will the sun go nova? Who invented the light year? Will we ever travel to the stars? These are just some of the unusual and popular questions NASA astronomer Sten Odenwald answers in *Back to the Astronomy Café*, based on his award-winning website "for the astronomically disadvantaged." Since his acclaimed earlier book *The Astronomy Café* published in 1998, the space community has been turned on its head with entirely new discoveries: ion propulsion, dark matter, gravity and magnetic reversals, the Cosmic Dark Ages, and over 100 new planets. In the all-new *Back to the Astronomy Café*, Odenwald answers the latest and most-asked questions relating to these recent discoveries. His highly personal and authoritative style makes understanding the cosmos less intimidating, exciting, and fun. Since he opened his website "The Astronomy Café" in 1995, Odenwald has answered over 50,000 e-mailed questions. His individual answers have been downloaded over 7.5 million times, making him the most sought-after "answer man" for astronomy in human history.

[It's a Question of Space](#) Clayton C. Anderson 2018-07 Having spent over 150 days on his first tour of the International Space Station, it's safe to say that Clayton C. Anderson knows a thing or two about space travel. Now retired and affectionately known as "Astro Clay" by his many admirers on social media and the Internet, Anderson has fielded thousands of

questions over the years about spaceflight, living in space, and what it's like to be an astronaut. Written with honesty and razor-sharp wit, *It's a Question of Space* gathers Anderson's often humorous answers to these questions and more in a book that will beguile young adults and space buffs alike. Covering topics as intriguing as walking in space, what astronauts are supposed to do when they see UFOs, and what role astronauts play in espionage, Anderson's book is written in an accessible question-and-answer format that covers nearly all aspects of life in space imaginable. From living in zero gravity to going to the bathroom up there, *It's a Question of Space* leaves no stone unturned in this witty firsthand account of life as an astronaut.

Ask the Astronaut Tom Jones 2016-03-22

Ever wondered what space is really like? Thanks to his 25 years of training for, flying in, consulting on, and writing and speaking about space, astronaut and spacewalker Tom Jones can answer that question and many others. What do you feel on liftoff? What is weightlessness? Where do you sleep in space? Can you see the Great Wall of China? Jones answers every question you have ever had about space in *Ask the Astronaut*. His entertaining blend of wit, personal experience, and technical expertise shines in each answer, and together all the answers illuminate the true space experience from start to finish. His engaging and informative responses remind readers of historic space achievements, acquaint them with exciting new ambitions, make them feel like they have experienced space firsthand, and even inspire an urge to explore space themselves. Jones covers everything from the training process for new astronaut candidates and the physical sensations and challenges of rocketing into orbit to what it's like to live, work, and walk in space. Jones also explores the future of spaceflight, both professional and commercial, in the years to come. *Ask the Astronaut* is a delight for all readers, especially "armchair astronauts" and younger, 21st century space explorers.
