Computerworld 1979-08-20 For more than 40 years, Computerworld has been the leading source of technology news and information for IT influencers worldwide. Computerworld's award-winning Web site (Computerworld.com), twice-monthly publication, focused conference series and custom research form the hub of the world's largest global IT media network.

Game On! Dustin Hansen 2016-11-22 Find out about the fast and furious growth and evolution of video games (including how they are quickly taking over the world!) by looking at some of the most popular, innovative, and influential games ever, from Pong, the very first arcade game ever, to modern hits like Uncharted. Learn about the creators and inspiration (Mario was named after Nintendo's landlord after he barged into a staff meeting demanding rent), discover historical trivia and Easter eggs (The developers of Halo 2 drank over 24,000 gallons of soda while making the game), and explore the innovations that make each game special (The ghosts in Pac-Man are the first example of AI in a video game). Whether you consider yourself a hard-core gamer or are just curious to see what everyone is talking about, Game On! is the book for you!

Popular Science 1978-01 Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

Health Psychology, 6e Jane Ogden 2019-05-03 Health Psychology is essential reading for all students and researchers of health psychology. Organized into four sections, the 6th edition is structured with a clear emphasis on theory and evidence throughout. This textbook maintains its popular and balanced approach between the biomedical and psychosocial model, while strengthening its focus on critical thinking and behaviour change. Key updates include: • Learning objectives: Each chapter opens with a set of learning objectives, which clearly outlines the knowledge, understanding and skills you will acquire from each chapter. • Case studies: Each chapter includes a case study to illustrate how the key theories and ideas are relevant to everyday life. • Through the Eyes of Health Psychology: A brand new feature to show how a health psychologist might analyse each case study using the theories and concepts presented throughout the book. • Health promotion: A whole chapter devoted to the theories and evidence relevant to behaviour change and includes a new section on integrated approaches and the drive to develop a new science of behaviour change. • Thinking critically about: The process of thinking critically is introduced in the first chapter which describes how to think critically about theory, methods, measurement and research design. Each chapter has its own 'Thinking critically about ...' section at the end to highlight problems with specific theories and research areas. This section includes critical thinking questions and a 'Some problems with...' section to form the basis of class discussions and enable students to be more critical in their thinking and writing.

Solar Pumping for Water Supply ALBERTO. W. KIPRONO IBANEZ LLARIO (ASENATH.) 2020-10-03 Solar power for pumping groundwater has a vast potential for improving the sustainability of water supply schemes. However a lack of knowledge is holding back their adoption. This book bridges this gap to equip engineers and technicians with the knowledge for design, implementation and operation of sustainable solar powered water schemes.
