The Capable Cruiser Lin and Larry Pardey 2010-06-08 Lin and Larry Pardey have now been cruising on board their own boats, racing, delivering, and repairing other people's boats for more than 44 years. After west-to-east and east-to-west circumnavigations, and voyages to more than 75 countries, they have a breadth of knowledge that few other boating authors possess. Most of the voyaging has been done on an earn-as-you-go budget that could be well within the reach of the majority of those whose dream is to set sail. Their motto? "Go small, go simple, but go now!" The Pardeys' strengths are neatly symbolized by the boats they have built. Each one is romantically traditional, with swooping sheerlines, and is completely dependent on the wind. And yet each boat carries the best, strongest, and most seamanlike gear. Like their vessels, the Pardeys' writings are founded on a marriage of the spirit of romantic adventure and the practical, up-to-date seamanship that keeps them and their boats safe. This revised and expanded third edition of a cruising classic includes 10 completely new chapters with such advice as: sixteen ways to encourage your lover (partner) to share your dream; strategies for turning sudden engine failure into a minor incident; choosing safety equipment; repairing rigging at sea. All of the original chapters have been updated to ensure that the information will be helpful for everyone who dreams of cruising—whether now or soon. The Capable Cruiser is a logical extension of the Pardeys' The Self-Sufficient Sailor, with more emphasis on seamanship underway, including careful analysis of extreme anchoring situations and solutions for mitigating them. Underlying each and every chapter is the warmth and encouragement that spurred Herb McCormick, former editor of Cruising World magazine, to label Lin and Larry Pardey "the enablers."

Conducting and Reading Research in Kinesiology Ted A. Baumgartner 2019-09-23 Updated and reorganized, Conducting and Reading Research in Kinesiology, Sixth Edition teaches students how to conduct their own research and how to read—with understanding—the research that others in the field have done. This text is comprehensive yet practical and understandable, incorporating many examples of the application of various research methods and techniques in an attempt to increase students' grasp of the research process. Written for those students with little research background, and those who may not write a master's thesis, the text helps readers develop an appreciation for research and an understanding of how different types of research are conducted so they will become good consumers and readers of the research of others Conducting and Reading Research in Kinesiology, Sixth Edition will also serve the need of students beginning the introduction to research course knowing they will write a master's thesis or complete a master's project, as it highlights the numerous

The Vo-Tech Track to Success in Health Care Susan Henneberg 2014-07-15 Health care is one of the fastest growing industries in the nation as the population ages and health care needs increase. Vo-tech education prepares teens for employment and further education in this challenging and rewarding field. Today's vo-tech students can learn practical skills, obtain health care certifications, and even earn college credit. This unique resource enables readers to make informed choices about paths to a health care career, focusing on secondary offerings such as magnet schools, career academies, schools-within-a-school, and other options. Armed with this valuable information, teens can start on the road to a successful health care career today.

CPR/AED for the Professional Rescuer American Red Cross 2006 This New American Red Cros CPR/AED for the Professional Rescuer Participant's Manual and course reflect changes based on the 2005 Consensus on Science for CPR and Emergency Cardiovascular Care (ECC) and the Guidelines 2005 for First Aid. Changes to this program and manual include simplifications to many of the CPR skill sequences, which helps improve retention. There have also been changes to help improve the quality of CPR. The integration of CPR skills into the operation of AEDs had changed to help improve survival from sudden cardiac arrest. Professional rescuers are now trained to use AEDs on adults and children. Information has been updated and added to this program to help professional rescuers administer epinephrine, aspirin and fixed-flow-rate oxygen. The skills learned in this course include adult, child and infant rescue breathing, conscious and unconscious choking, CPR, two-rescuer CPR and adult and child AED. Additional training can be added to this course including bloodborne pathogens training and emergency oxygen administration. While the skills and knowledge that professional rescuers use are increasing, this training will help you meet your most important responsibility as a professional rescuer- the responsibility to save lives.

Enhancing Competency of Teachers Dr. Marcelino D. Catahan, PhD 2015-06-02 "Enhancing Competency of Teachers" is a fundamental teaching-and-learning guide. Its main goal is to learn and develop an enhanced value system (EVS) and practice it in everyday life. Filipinos are known worldwide for being friendly and hospitable. However, without limitations, these traits become the "roots of corruption" in all sectors of Philippine life. This book outlines the sequence of logical modules in teaching-and-learning enhancement programs (TLEP) in the school settings. It is designed for learners in all educational levels, to enhance competencies and effectiveness in human resource development and training. It contains concepts, principles, and strategies for effective teaching and learning. The "Ethico-Moral Theory in Learning" provides five sets of significant rules in learning ethicomoral values to become genuine professionals. Verily, the skill, method, and social competencies of a person are not enough. They must be supported by a quality EVS that will guide the person to think, feel, and act-with strict reverence to the will of God. Many books contained different insights, theories, philosophies, principles, and concepts in teaching and learning that sometimes confused readers in understanding how to learn or teach productively. In contrast, this text is presented in a very simple and logical manner. It advocates for the need of educational change, using EVS as the "key." It presents simple approach in designing, implementing, and managing TLEP in school settings. It covers elementary modules-i.e., Learning Process; Teaching Methods/Techniques/Strategies; Preparing Daily Lesson; Sequence of Instruction; Selection of Teaching Aids; Speech Techniques; Questioning Techniques; Learning Distractions; Evaluation Techniques, Review/Summary/Reinforcement. Verily, a high school graduate can become a very productive professional through reading this book seriously. Today, the main cause of poverty is "corruption." Poverty creates hunger. Hunger results to crimes. Criminal acts are indicators of degraded ethicomoral values. To have "More Fun in the Philippines," EVS is a must amongst Filipino people!
