Forced to flee after committing a terrible crime, he and his brother, Albert, their best friend, Mose, and a brokenhearted little girl named Emmy steal away in a canoe, heading for the mighty Mississippi and a place to call their own. Over the course of one summer, these four orphans journey into the unknown and cross paths with others who are adrift, from struggling farmers and traveling faith healers to displaced families and lost souls of all kinds. When Women Kill Belinda Morrissey 2003-12-08 Why are we so reluctant to believe that women can mean to kill? Based on case-studies from the US, UK and Australia, this book looks at the ways in which female killers are constructed in the media, in law and in feminist discourse almost invariably as victims rather than actors in the crimes they commit. Morrissey argues that by denying the possibility of female agency in

crimes of torture, rape and murder, feminist theorists are, with the best of intentions, actually denying women the full freedom to be human. Case studies cover among others the battered wife, Pamela Sainsbury, who garrotted her husband as he slept, the serial killer, Aileen Wournos, who killed seven middle-aged men in Florida between 1989 and 1990, Tracey Wiggington, the so-called "lesbian vampire killer", and Karla Homolka who helped her husband kill two teenage girls in St. Catherines Ontario in 1993.

The Theory and Practice of Online Learning Terry Anderson 2008 Neither an academic tome nor a prescriptive 'how to' guide, *The Theory and Practice of Online Learning* is an illuminating collection of essays by practitioners and scholars active in the complex field of distance education. Distance education has evolved significantly in its 150 years of existence. For most of this time, it was an individual pursuit defined by infrequent postal communication. But recently, three more developmental generations have emerged, supported by television and radio, teleconferencing, and computer conferencing. The early 21st century has produced a fifth generation, based on autonomous agents and intelligent, database-assisted learning, that has been referred to as Web 2.0. The second edition of "The Theory and Practice of Online Learning" features updates in each chapter, plus four new chapters on current distance education issues such as connectivism and social software innovations.

The Book of Evidence John Banville 2012-03-07 John Banville's stunning powers of mimicry are brilliantly on display in this engrossing novel, the darkly compelling confession of an improbable murderer. Freddie Montgomery is a highly cultured man, a husband and father living the life of a dissolute exile on a Mediterranean island. When a debt comes due and his wife and child are held as collateral, he returns to Ireland to secure funds. That pursuit leads to murder. And here is his attempt to present evidence, not of his innocence, but of his life, of the events that lead to the murder he committed because he could. Like a hero out of

Nabokov or Camus, Montgomery is a chillingly articulate, self-aware, and amoral being, whose humanity is painfully on display.

A Room of One's Own Virginia Woolf 2020-10-12 In October 1928 Virginia Woolf was asked to deliver speeches at Newnham and Girton Colleges on the subject of 'Women and Fiction'; she spoke about her conviction that 'a woman must have money and a room of her own if she is to write fiction'. The following year, the two speeches were published as *A Room of One's Own*, and became one of the foremost feminist texts. Knitted into a polished argument are several threads of great importance - women and learning, writing and poverty - which helped to establish much of feminist thought on the importance of education and money for women's independence. In the same breath, Woolf brushes aside critics and sends out a call for solidarity and independence - a call which sent ripples well into the next century. 'Brilliant interweaving of personal experience, imaginative musing and political clarity' — Kate Mosse, *The Guardian* 'Probably the most influential piece of non-fictional writing by a woman in this century.' — Hermione Lee, *The Financial Times*

All About Love bell hooks 2018-01-30 A New York Times bestseller and enduring classic, *All About Love* is the acclaimed first volume in feminist icon bell hooks' "Love Song to the Nation" trilogy. *All About Love* reveals what causes a polarized society, and how to heal the divisions that cause suffering. Here is the truth about love, and inspiration to help us instill caring, compassion, and strength in our homes, schools, and workplaces. "The word 'love' is most often defined as a noun, yet we would all love better if we used it as a verb," writes bell hooks as she comes out fighting and on fire in *All About Love*. Here, at her most provocative and intensely personal, renowned scholar, cultural critic and feminist bell hooks offers a proactive new ethic for a society bereft with lovelessness--not the lack of romance, but the lack of care, compassion, and unity. People are divided, she declares, by society's failure to provide a model for learning to love. As bell hooks uses her incisive mind to explore the question "What is love?" her answers strike at both the mind and heart. Razing the cultural paradigm that the ideal love is infused with sex and desire, she provides a new path to love that is sacred, redemptive, and healing for individuals and for a nation. The *Utne Reader* declared bell hooks one of the "100 Visionaries Who Can Change Your Life." *All About Love* is a powerful, timely affirmation of just how profoundly her revelations can change hearts and minds for the better.

Handbook of Feminist Research Sharlene Nagy Hesse-Biber 2012 The second edition of the *Handbook of Feminist Research: Theory and Praxis*, presents both a theoretical and practical approach to conducting social science research on, for, and about women. The *Handbook* enables readers to develop an understanding of feminist research by introducing a range of feminist epistemologies, methodologies, and methods that have had a significant impact on feminist research practice and women's studies scholarship. The *Handbook* continues to provide a set of clearly defined research concepts that are devoid of as much technical language as possible. It continues to engage readers with cutting edge debates in the field as well as the practical applications and issues for those whose research affects social policy and social change. It also expands on the wealth of interdisciplinary understanding of feminist research praxis that is grounded in a tight link between epistemology, methodology and method. The second edition of this *Handbook* will provide researchers with the tools for excavating subjugated knowledge on women's lives and the lives of other marginalized groups with the goals of empowerment and social change.

The Lonely Passion of Judith Hearne Brian Moore 1988 Brian Moore burst upon the literary scene in 1955 with this moving and brilliantly observed study of a woman imprisoned by the passage of time. He went on to be hailed as one of the best fiction writers of his generation. Alone in her room in a Belfast boarding house, Judith Hearne is almost overwhelmed by loneliness. Yet she still believes there is a chance for happiness, and she waits patiently for the moment when her life will turn from sorrowful longing to joy. By chance she meets a man - the man - and her dreams take on a brighter hue, only to be dashed once more. With skill and gentle insight, Moore depicts the disintegration of Judith Hearne's last illusions. Clinging to the bottle for comfort, she becomes a tragic figure who speaks frankly about the human condition. Though we laugh at her foibles, we weep at her plight, and share her primal longing for love and connection. This touching story was made into a critically

acclaimed motion picture in 1987.

Practical Ethics Peter Singer 2011-02-21 For thirty years, Peter Singer's *Practical Ethics* has been the classic introduction to applied ethics. For this third edition, the author has revised and updated all the chapters and added a new chapter addressing climate change, one of the most important ethical challenges of our generation. Some of the questions discussed in this book concern our daily lives. Is it ethical to buy luxuries when others do not have enough to eat? Should we buy meat from intensively reared animals? Am I doing something wrong if my carbon footprint is above the global average? Other questions confront us as concerned citizens: equality and discrimination on the grounds of race or sex; abortion, the use of embryos for research and euthanasia; political violence and terrorism; and the preservation of our planet's environment. This book's lucid style and provocative arguments make it an ideal text for university courses and for anyone willing to think about how she or he ought to live.

Masculinities R. W. Connell 2005 This is an exciting new edition of R. W. Connell's ground-breaking text, which has become a classic work on the nature and construction of masculine identity. Connell argues that there is not one masculinity, but many different masculinities, each associated with different positions of power. In a world gender order that continues to privilege men over women, but also raises difficult issues for men and boys, Connell's account is more pertinent than ever before. In a substantial new introduction and conclusion, Connell discusses the development of masculinity studies in the ten years since the book's initial publication. The book explores global gender relations, new theories, and practical uses of masculinity research. Looking to the future, a new concluding chapter addresses the politics of masculinities, and the implications of masculinity research for understanding current world issues. Against the backdrop of an increasingly divided world, dominated by neo-conservative politics, Connell's account highlights a series of compelling questions about the future of human society. This second edition of Connell's classic book will be essential reading for students taking courses on masculinities and gender studies, and will be of interest to students and scholars across the humanities and social sciences.
